Purpose: To communicate our commitment to sustainable development and the steps we are going to take to achieve it in Andhra Paper Limited

Scope: This policy applies to the entire organization

Policy: The vision of Andhra Paper Limited (APL) is to become the top-performing and most respected paper company in India.

When we talk about sustainability, the first thing that comes to the mind is ecology. Of course, ecology is a significant part but sustainability as a function involves economy and society along with ecology which is popularly known as the Triple Bottom Line.

We want Sustainability Policy to be an enabler to the ongoing sustainable development that drives the organization.

It describes the intent of the company leadership and promotes a common understanding of sustainability activities in the organization.
