Serving you with pride..

APLsamvad

4th Edition : October 2024 to March 2025

**“In a world of pixels and screens, paper stands strong
a symbol of trust: Tangible, Enduring & Timeless”**

MANAGEMENT DESK

Mr Shrihari Singh - AVP
Mechanical

Through the implementation of TPM, 5S, and other lean maintenance practices, our focus remains on enhancing Overall Equipment Effectiveness (OEE), improving operational efficiency, and ensuring equipment reliability, all while maintaining strict adherence to safety and environmental standards. The dedicated and skilled team shares a common vision of innovation & process excellence. Together, we're not just maintaining machinery — we're building a smarter, safer, and more efficient future for our plant. Let's keep pushing boundaries and setting new benchmarks!

As Engineering Lead, I'm proud of our team's progress, driven by innovation, sustainability, and operational excellence. Key projects like DIP and KA#3 have enhanced quality and efficiency, while our focus on cutting-edge technologies and sustainable practices has strengthened our competitive edge. Our commitment to equipment reliability has stabilized operations, driving consistent production and cost savings, while reducing inventory. I'm grateful for the hard work and collaboration of our talented team. Together, we will continue to drive growth and shape future success.

Mr N Srinivas Reddy - GM
Engineering & Reliability

CSR ACTIVITIES

Two tractors were given to Katheru grama Panchayat under CSR program for solid waste management inaugurated by Mr. Mukesh Jain - Executive Director, APL along with Gorantla Butchaiah Choudhary, MLA, Rajahmundry Rural.

Forklift Operators Training conducted to mill wide forklift operators for both units Rajahmundry & Kadiyam by External Trainer & Certificates issued.

Safe work Observation & Accident Causation theory training session by External trainer.

Refresher & Basic Hazard Recognition training conducted for contract workmen.

Confined space training session by Deputy Chief Inspector of Factories.

LEADERSHIP AND TEAM BUILDING WORKSHOP FOR SENIOR MANAGEMENT TEAM

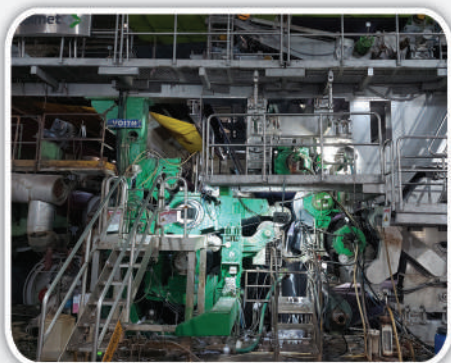

Leadership and Team-Building workshop conducted for the Senior Management Team of APL by Mr. Shiladitya Bhattacharya - Positive Strokes.

PROCESS & RELIABILITY IMPROVEMENTS

A Speed Flow (Size Press) was installed at KA#3 during Annual Outage 2024 to enhance product quality. This upgrade has enabled to produce paper suitable for 4-color printing, a significant improvement from the earlier 2-color printing.

At KA#3, the dryer group gear train was replaced with Silent Drives to enhance machine reliability and support a speed increase to 700 MPM. This upgrade significantly reduced oil leakages, unplanned breakdowns related to dryer gear issues, and lowered vibration levels, leading to smooth & efficient operations.

At KA#3, the Pick-up Press and 2nd Press frames were replaced with new structures during Annual Outage 2024 to enhance machine reliability and enable operation at 700 MPM. This upgrade reduced vibration levels in the press section and improved the loading performance of the press rolls.

Ash Leaching Technology

A 95 TPD Ash Leaching Plant was commissioned to reduce non-process elements like chlorides and potassium from the recovery liquor cycle which resulted in reduced dead load in the recovery cycle, Improved Recovery Boiler stability by minimizing superheater jamming, increased steam generation per ton of solids, Enhanced evaporator efficiency and Sulphate recovery through ash recirculation

New Warehouse

A 5,590 SQM warehouse is under construction to accommodate an additional 4,500 MT of finished goods, supporting our goal of delivering the right product to the customer at the right time. The warehouse is scheduled to be operational by the first week of June 2025.

DE-INKING PLANT UP-GRADATION

De-Inking plant was upgraded to reduce the Dirt count in the pulp and to enhance the Reliability of the equipment like Fiber Flow Drum (Drum Pulper), Flotation cells, Loop-1 Dispersion system, Screw Press and Inclined Screw for Loop-2 Dispersion System.

132 KV lines relocated in the plant by installing new towers to provide sufficient space for expansion of new warehouse.

FARM-FORESTRY TEAM INTERACTION WITH THE FARMERS

Meeting with Farmers at Rayavaram.

Meeting with Farmers at West Godavari District.

Farmers Meeting at Perupalem, Narasapuram.

Farmers Meeting with Addateegala Tahasildar.

Andhra Paper Ltd. focuses on farmer welfare within 150 km, raising awareness through meetings and materials, leading to increased pulpwood planting (Casuarina, Subabul and Eucalyptus).

IFGTB Scientist Visit to Farmers Plantation – Dr Nichodemos, Scientist from IFGTB Visited Farmers Plantation at Uttarakanchi, Prathipadu Mandal, East Godavari district to provide Technical Guidance to Farmers.

Visit to Plantations & CPC – Interested Farmers are taken to Progressive Farmers Plantation to encourage Farmers to Plant Pulpwood Plantations.
